Our Story

Since 1999, Decowraps has been committed to the success of its extended family. Whether it's our customers, their suppliers, our employees, or even the floral industry itself, we love seeing everyone's progress and success.

Decowraps' objective has been to supply the floral industry with the most innovative packaging products, focusing mainly on modern retail organizations and their suppliers around the world. Our goal is to enhance special moments for the end consumer by offering our customers solutions that make their businesses more successful.

As a result of global sourcing, vertical integration and superior personalized customer service, we have built a reputation as a leading supplier of distinctive packaging options for all levels of fresh cut flowers and potted plants.

Our proven process has allowed us to assure to our customers that we stand behind our work, and if there are any issues, we will address them on our dime.

Our marketing team has created this catalog as a tool for you to generate programs that will heighten your customer's interest by recognizing a greater perceived value and to infuse a new level of excitement into your products.

Thanks to our affiliated sales and warehouse facilities in Aalsmeer, Bogotá, Miami, Mississauga, Nevada, Quito, St. **Louis and Kenya**, we are able to offer prompt service, simplified logistics and competitive pricing. Meanwhile, our affiliated production facilities in Colombia, Vietnam and China provide all production needs.

Our in-house design staff creates quality products that are always fresh, innovative and on trend for all seasons and holidays. We pride ourselves in offering countless patterns and designs in addition to going above and beyond to satisfy our clients with custom creations. Most of our products are customizable in material, size and design. Every order is attended to with a clear understanding of your needs, awareness of your deadlines and the highest level of integrity.

We hope that our catalog proves useful to you and we welcome your feedback. Please contact your sales representative or any of our offices for any assistance you may require.

Enjoy our collection

Decorraps ENHANCING SPECIAL MOMENTS

Accents Collection

Customized, exclusive and unique potted and floral upgrades

Since 1999, Decowraps has dedicated its focus to styling flowers and plants with a permanent search for better serving our clients.

As a result, Decowraps developed *ACCENTS by Decowraps*. The goal of this division is to offer customized, exclusive and unique solutions for upgrades to our potted and floral customers.

Since its creation in 2010, the Accents division has gained expertise in sourcing hardgood products such as picks and glass vases, as well as ceramics, biodegradable and woven containers. Our mission is to work closely with customers and suppliers to offer on-trend designs, which are tailored to their specific needs and capacities while meeting their target prices.

We are proud to be partners with some of the finest and most reputable factories in China. We can create custom designed containers in a variety of materials to provide you with the flexibility to incorporate any of our other packaging solutions, thus allowing you to create a truly seamless and cohesive packaging program. In addition, our collection of picks allows you to accentuate your flowers and plants in order to set the tone for a specific holiday or season.

Our relationship and dedication to our clients has always been at the heart of our success. It is because of this that Decowraps has built a reputation as an industry leader in upscale and innovative quality packaging products.

We offer you solutions for all of your packaging needs, and in partnership with ACCENTS by Decowraps, you can now create beautiful programs that are entirely coordinated around your needs. We offer you the comfort and assurance that your packaging is of the highest quality and that it is always attended to with a clear understanding of your requests, awareness of your deadlines, and the utmost level of integrity.

KEEP YOUR SHORT BOUQUETS HYDRATED WITH OUR

Water Bubble

for Short Bouquets

Step 1: Lay your Water Bubble flat with the opening facing up and place the bouquet stand inside.

3 inches if water

Step 2: Fill the Water Bubble with approximately

WATER BUBBLE Bopp Bag

4.72 in

Packed 500 per case per color Stocked in Miami

Step 3: Take the prepared bouquet and cut the stems so that the finished bouquet lenght is proportionate to the Water Bubble size

Step 4: Use the Twist Tie to wrap around the top of the Water Bubble and keep the bouquet tight inside.

TURN YOUR FLORAL SHOP INTO A FUNCTIONAL YET DREAMY EXPERIENCE BECAUSE BUYING FLOWERS IS SO MUCH MORE.

The Florist Supply Shop

Walking into shops tangled with botanicals and covered with colored blooms is certainly one of life's simplest yet greatest pleasures. We know a lot goes on behind the scenes to provide this charming feel, a beautiful storefront, and a seamless shopping experience.

With this in mind, Decowraps developed a new line that promises to deliver this and so much more.

Since 1999, Decowraps' main objective has been to supply the floral industry with the most innovative packaging products, focusing mainly on modern retail organizations and their suppliers worldwide.

Thanks to our affiliated sales and warehouse facilities in Alsmeer, Bogota, Miami, Mississauga, Nevada, Quito and Kenya, we are able to offer prompt service, simplified logistics and competitive pricing. In addition, our affiliated production facilities in Colombia and China fulfill all production needs.

The Florist Supply Shop helps you create a lasting impression, increase sales, and reduce labor with unique solutions that enhance your customers' purchasing experience and improve your supply procurement.

The new collection is complete with elegant wrapping, carry-out, pick, and utility products that effortlessly promote the concept of affordable luxury and drive impulse purchases at the store level through the powers of convenience and messaging.

Transform a simple bouquet into a stunning arrangement in a matter of seconds with products like the Multilayer Wrap and Assorted Sheet Kits. Make it even more special with personalized or seasonal messages using our picks collection, and facilitate the buying experience with functional carry-out bags and boxes that can comfortably fit several arrangements without the risk of damage.

Visit our website

thefloristsupplyshop.com

We offer a complete collection of online wholesale floral supplies including elegant wrapping, carry-out, pick, and utility products.

These items effortlessly promote the concept of affordable luxury and drive impulse purchases at the store level through the powers of convenience and messaging.

ACCENTS CONTAINERS

Custom Solutions

ACCENTS by Decowraps is focused on offering customized, exclusive and unique solutions for upgrades to our floral and potted customers.

Since our creation in 2010 we have gained expertise in sourcing hardgood products such as picks, glass vases, ceramics, biodegradable, zinc and woven containers. The options are limitless! Our mission is to offer on-trend designs tailored to your specific needs and capacities while meeting your target prices.

We are proud to be partners with some of the finest and most reputable factories in China, Mexico and Vietnam.

We can create custom designed containers in a variety of materials to provide you with the flexibility to incorporate any of our other packaging, thus allowing you to create a truly seamless and coherent program. In addition, our collection of picks accentuate your flowers and plants and set the tone for a specific holiday or season.

Our relationship and dedication to our clients has always been at the heart of our success. It is because of this that Decowraps has built a reputation as an industry leader in upscale and innovative quality products.

DECOWRAPS CUSTOM PACKAGING DECOWRAPS PROCESS

Packaging Solutions

CUSTOMIZATION

At Decowraps we strive to offer our clients comprehensive solutions for their packaging needs. Our design team is constantly following the latest design trends. Our customer's satisfaction is always our main focus as well as providing quality products and exceptional customer service.

Apart from offering our extensive selection of products, we also offer our clients the option of creating a customized product specifically designed to fit their needs.

Most of our products can be customized in size, print and material. We can create thousands of packaging solutions from a variety of materials and products such as sleeves, sheets, gift bags, ceramics, tin containers, picks, and more.

OLIVIA CARRY OUT

CUSTOM ORDERS

Digital and physical samples are available for you to preview your customized product before it is approved for production, giving you the security and reliability that your final product will be everything you wanted.

No matter what project you have in mind, our design team can work with you to create it. Please contact your sales representative or any of our offices for any of your custom projects.

F7 WRAP WITH HANDI F

Production Process

Decowraps has a variety of production capabilities available to help create the ideal package. 6 & 8 color printing, thermo forming, and manual crafts are just a few of our numerous production options available to create the best packaging solution for your products.

Our printing capabilities offer up to 8 color flexographic and rotogravure printing, allowing us to print and create any design you would like.

SHEETING

Cut to length.

SLEEVE SEALING MACHINES

Used to provide a safe & durable seal for sleeves.

LAMINATION

The process of gluing two substrates together allows versatility in your packaging options. Laminating with a BOPP film will give a glossy finish that prevents scratching or damage to the printed design and also adds a barrier to protect against moisture. We glue nearly any two substrates together to create a dual look (such as bleached kraft and brown kraft).

THERMOFORMING

Used to pre-form paper and films, seen in our Fastwraps and other thermoformed products.

MANUAL CRAFTS

We can offer our clients the flexibility in creating unique products that require manual crafting, such as Gift Bags, Prefolds and Picks.

SINGLE FACE MICRO-CORRUGATING

Allows our clients to create square bunches that pack efficiently providing bruise protection, reducing excess humidity and dehydration. They are manufactured with high quality, bright white paper and customizable in material finishes, thickness, and printed design.

PRESSURE SENSITIVE ADHESIVE LABEL CONVERTING EQUIPMENT

Allows for cutting and converting any label into a desired shape to create unique tags and labels that stand out. *Removable & permanent adhesives available.

Trends

Decowraps is as much of a design company as it is a packaging enterprise. Throughout the floral industry, packaging is used as a means to communicate a message, create an image and effectively market a business.

As a result, our company invests a vast majority of our resources on researching trends in product development as well as design. This in-depth grassroots research is what fuels our inspiration us when creating our annual stock line, as well as custom programs.

Every year, Decowraps forecasts future trends in design, colors and materials. In order to make these predictions, our Design and Marketing Departments conducts organic studies by analyzing trends in fashion, interior design, product design, architecture, textiles and graphic design. Our staff also carefully examines how our society is changing in order to create on-target predictions and clearly understand consumer tendencies.

Decowraps' main objective is to create packaging that will successfully reach your target consumer as well as effectively promote your brand. By predicting the latest trends, we can design packaging that will truly connect to your target audience. We want to make sure that you are ahead of the curve in terms of design and product development, so that together, we can create products that will resonate with the end consumer.

To schedule a trends consultation, please contact your Business Development Manager today.

128 Decowraps Packaging Solutions & Production Process 129

SUSTAINABLE PACKAGING SOLUTIONS

Sustainable Packaging

The growing consumer awareness regarding sustainable packaging, the strict bans regarding the usage of single-use plastics, rising environmental concerns caused by the packaging waste that ends up in landfills are some of the major factors that drive up the demand from consumers for better solutions.

With the environmental challenges our world is facing, brands are also facing new challenges but at the same time massive opportunities are arising. What you mean, what you believe and how you will make the world better. Using the power of innovation to create a positive impact.

to developing more circular packaging solutions helping to promote recycling, increase the use of renewable and recycled materials, thereby reducing the environmental cost and the impact of packaging, while maintaining the important functionalities in product preservation and protection.

At Decowraps, we aim to create packaging that will successfully represent your target consumer as well as represent your own brand. With the environmental challenges our world is facing today, massive branding opportunities are emerging simultaneously.

As packaging manufacturers we understand the responsibility we have to the environment.

Eco-Friendly Products

Decowraps is committed to developing more sustainable packaging solutions in order to combat environmental issues.

ISO Certified

ISO 14001:2015 helps Decowraps achieve the intended outcomes of our environmental management system which provides value for the environment, the organization itself, and interested parties.

Creating Sustainable Future

Decowraps has added regenerative thermal oxidizers (RTOs) to our Colombian and Chinese factories in an effort to reduce our carbon footprint as well as provide cleaner air for the environment.

Making packaging items recyclable and using recycled content, add value to waste, giving an additional incentive to keep waste out of the environment and within a closed loop.

Together with using renewable materials, which are being maintained within the value chain for as many cycles as possible, reducing the demand for new feedstocks and de-coupling completely from fossil fuels, helping combat global warming.

These are the fundamentals which make the circular economy the far better option for our society and environment.

The switch to sustainable packaging is an answer to the current climate crisis, and a necessity from a business point of view.

ROSES ARE RED, ECO WRAPS ARE GREEN

Eco Wrap

The current rose-packing situation is a huge thorn in Earth's side. For years companies have been using substantial amounts of plastic and paper to protect roses during transport, creating waste that contaminates recycling streams and clogs our landfills.

Here at Decowraps, we strive to put sustainability at the forefront of the floral industry. We evaluated the current industry standard and its effect on the environment, so we developed yet another sustainable packaging solution – Eco Wraps.

Eco Wraps are an eco-friendly and effective paper wrapping solution designed for shipping roses. The wraps are made of biobased, recyclable, compostable virgin white top kraft line paper. This paper is coated with FDA approved fluorine-free, water-based coating that protects the roses from humidity during transport.

"We are not only excited to bring a more sustainable solution for the floral industry, but we are proud of our team for developing a product which has been tested and proven to be as effective as the current plastic wrapping to protect roses," says CEO Steven Tchira.

According to a study conducted by FloraLife, Eco Wraps were found to provide roses a comparable shelf life to that of standard plastic wrap. Not only do Eco Wraps protect roses like the other packaging methods – they do so while only using half the material. Eco Wraps save up to 55% of the materials used in other paper based wrapping solutions, such as single face corrugated sheets.

By reducing plastic and paper usage without sacrificing quality, Eco Wraps prove to be the most effective sustainable rose packaging solution on the market today.

Customized to fit your roses & needs.

Available in different finishes and thicknesses.

BENEFITS & FEATURES

Microcorrugated Sheets

BENEFITS

The Microcorrugated Sheet is designed to protect roses during transit.

It's made of 100% environmentally friendly paper and can also be recycled.

Our paper undergoes a special process through which a humidity protection varnish is applied.

BENEFICIOS

Nuestra lámina de Cartón Microcorrugado esta diseñada para proteger las rosas durante el tránsito.

Está hecha de papel 100%, no daña el medio ambiente y es reciclable.

El papel está tratado con recubrimiento de alta resistencia a la humedad.

FEATURES

- Guide line 5 cm from the top edge of the sheet can be printed upon customer request.
- Packed by 200 pieces, protected by thick shrink plastic.
- Availability to produce a wide array of sheet dimensions.
- Highest quality inks.
- Different material finishes and thicknesses available to meet your needs.
- Designs can be customized.
- Graphic design services offered.
- We offer the option of laminating the corrugated sheets, giving them a higher resistance to humidity and also increasing perceived value.

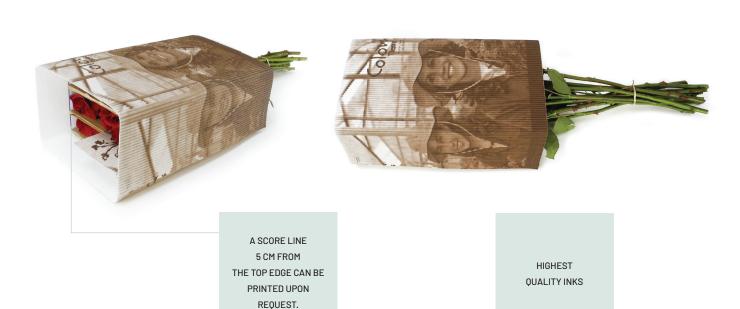

CARACTERISTICAS

- Una línea guía a 5 cm desde el borde superior de la hoja, puede ser impresa de acuerdo a la solicitud del cliente.
- Bultos empacados en plástico termo-encogible por 200 unidades.
- Disponibilidad de medidas.
- Tintas de alta calidad.
- Variedad de terminaciones y grosores, de acuerdo a sus necesidades.
- Los diseños pueden ser personalizados.
- Servicio de diseño.
- Ofrecemos la opción de plastificar la lámina corrugada para darle mayor protección a la humedad y también para aumentar el valor percibido del producto.

White, Kraft or custom in a wide array of sheet dimensions.

Available in diferent finishes and thicknesses
